Attachments: Saltworks AA Priority Funds Request FORM.docx attachment withheld - b5

Might be good to fill in the dates at least duration for a contract work once it is initiated. Jason I saw your emails, but wasn't sure if you added dates or anything other narrative to stress the importance of this effort. I think it may be necessary as this will compete with all other projects being put forward (nationally) .

Thanks,
nw

Subject: Saltworks \$ request

Ken is considering \$ requests for his discretionary budget on Friday. We need to get something in today. Please review and beef up, especially specifics on any wetlands extramural \$ actually in the Region. Finalize and send to Lori Keyton and cc OWOW and me. Thanks.
